

Continental is a US manufacturer of specialty tools, gages, and assemblies for military and other government agencies. We have over 4,000 active drawings of standard and special Military tools, and through the years, we've made over 10,000 different military end-use items. This list represents the most common NSN part numbers currently being supplied by Continental Tool to government agencies. Continental also manufactures large volume quantities of standard hand tools not found on this list, so be sure to inquire if we can help.

***To search, type Ctrl + F and enter the NSN (with dashes) you are looking for to determine if it is something we manufacture.
